Features designed for industry specific needs.

Key Benefits available only in Premier and Enterprise Solutions:

Industry Edition	Key Benefits & Features	Key Industry Specific Reports
Contractor Edition helps boost profits with easy–to–use job costing tools, nine Contractor reports, and a profitability snapshot of any open job.	● Easily track changes to contracts or proposals. **Change Orders** updates expected costs so job costing is more accurate. ● See **job profitability** on multiple projects in the Job Costing Center. ● Track **subcontractor insurance expiration dates**.	● Job Costs by Job & Vendor Summary ● Cost to Complete by Job Detail ● Job Status
Manufacturing & Wholesale Edition provides one-click access to inventory item lists, price level lists, building assemblies, and other tasks & features commonly used by wholesalers & distributors.	● Instantly see an item's complete inventory status in the **Available to Promise** window. Review how much of an item is on hand, what's been committed to customers, what's expected on Purchase Orders, and what's pending for builds. ● View the status of open sales orders on one screen in the **Sales Order Fulfillment Worksheet**. See which orders can be shipped and which can't, then instantly batch-print pick lists, packing slips or sales orders.	● Sales by Product Report ● Profitability by Product Report ● Inventory Reorder Report by Vendor
Nonprofit Edition makes it easy to demonstrate financial accountability to the Board of Directors and donors.	● Translates industry terminology in reports so you don't have to with **nine nonprofit specific reports**. ● Monitor program funding with **budget v. actual** reporting and track budgets by program with the Unified Chart of Accounts. ● Manage donors, contributions and fundraising efforts with **budgeting & forecasting tools**.	● Donor Contribution Summary Report ● Statement of Financial Income & Expense ● Statement of Functional Expenses (Form 990)
Retail Edition saves you time managing retail activities.	● Track sales in one convenient place with the **Sales Summary form**. Reconcile end-of-day sales totals to payments received. ● **Organize your customer information** on one screen. See who has paid you and who owes you.	● Purchase Volume by Vendor ● Customer Payments by Payment Item ● Vendor Returns Detail
Professional Services Edition makes it easy to keep on top of projects and show where you're making or losing money.	● Set different **billing rate levels** by employee, client or service type. ● See all **unbilled time & expenses** on one screen and transfer directly to an invoice.	● Project Status ● Billed/Unbilled Time by Person ● Unbilled Expenses by Project
